PHILIPPINE TRADE.

American Merchants Slow to Get Hold of Markets.

Principal Reason Therefor Is That the Established Channels of Trade Are with Spain, France, Germany and Switzerland.

The Manila correspondent of the New York Journal of Commerce sends the following details concerning the trade in the Philippines: The invasion of the markets of the Philippines by American merchandise and merchants is much less complete as yet than the invasion of the islands by American political ideas, but there are indications that American goods will outnumber in increasing quantities within a short time. Judging from the extent of the short American establishments are comparatively few, but judged from the interior the feeling created by American goods is more widespread.

Y.

One of the difficulties with which Americans have to contend in this market is the fact that the established channels of trade are with Spain, France, Germany and Switzerland, rather than with America. The great jewelry stores, the dry goods stores, the importers of boots, shoes, hats and all sorts of necessities of life have long since established their headquarters with European exporters and are familiar with their goods, systems of credit, methods of packing and freight facilities. In fact, the Americans naturally enjoy some of the same advantages, which skill and long practice give them in the United States. The representatives of the Spanish chamber of commerce appreciate the fact, however, that a new era is beginning in Philippine trade. Retail trade in many lines here has been based upon the principle of charging "what the tariff will bear," rather than upon the maximum prices enforced by competition. Merchants have been content with large profits upon small sales, rather than small profits upon large sales. Considerable work is being done by Civil Gov. Taft and the Philippine commission in gaining civil government and preparing to extend American methods of cultivation and American methods of transportation throughout the islands.

TO REVISE CHINA'S TARIFF.

United States Commissioner Sherrett Wants Revision of American Export Goods.

Speaking to the members of the chamber of commerce of San Francisco, T. S. Sherrett, United States Commissioner, in a recent address, said: "I am informed, are the next most important articles exported from the United States to the Chinese market. I ask you to prepare and forward to me Shanghai the home value per unit of every description of this class of merchandise, and I will endeavor to secure the home value per unit to be placed on the tariff thereon. I am anxious to see that the tariff is equitable to the other powers. To prospective exporters of every line of American products I urge similar action."

"After concluding my labors on the commission of the Chinese tariff to a specific basis I have been notified by the president and state department that I will probably be called upon in conjunction with Minister Conger to negotiate a new commercial treaty with China. In this connection, I would be glad to receive suggestions in the near future from merchants in the United States regarding such changes as in their opinion will prove beneficial."

MAY BALLOON AROUND OCEAN.

M. Santos-Dumont Considering Long Distance Flight in His Airship in 1902.

The Paris Figure states that if M. Santos-Dumont, the Brazilian aeronaut, is successful in his proposed trip across France to Cordoba, he will be the first to cross the Atlantic Ocean in 1902 in a balloon larger than the present one.

M. Santos-Dumont has received from M. Campos-Salles, president of the republic of Brazil, the following telegram:

"Accept, with my warmest congratulations, the applause of our compatriots, for your extraordinary triumph, which glorifies your youth as much as it honors our country."

Prince Roland Bonaparte, president of the aeronautical commission, and M. Dutach are both of the opinion that M. Santos-Dumont has won the prize, and the letter has telegraphed to the aeronaut to this effect. Santos-Dumont is convinced the commission will award it to him.

Shouse in Charge.

A press dispatch from Lexington says: A considerable stir has been created in the local newspaper world by the announcement that Jonett H. Shouse, business manager of the Lexington Herald, had secured a block of stock in the Morning Democrat and had been elected Secretary and Treasurer of the company and business manager of the paper. On the resignation of R. L. Baker as business manager of the Democrat a few days ago, it was announced that the two morning papers would consolidate. This has been denied by both parties. Mr. Shouse severed his connection with the Herald absolutely.

Valued Relic to be Moved.

America's most valued relic, the old Liberty Bell, will be sent to Charleston on January 8 next, to be exhibited in the Pennsylvania building at the Exposition to be held there. This will make the bell's fourth trip in little more than a quarter of a century. Preparations for its removal have already begun. The work will be attended with all the dignity that national and civic pride demands, and the bell, dear to the hearts of millions, will go out of Philadelphia to the music of bands and the march of men.

Advertising Pays.

Three months ago Dr. Nathan Newman, of Kansas City, advertised in a newspaper for a young woman correspondent. Miss Sadie Hirsch, of Nashville, responded and Wednesday Dr. Newman and Miss Hirsch were married. The couple had never seen each other until Wednesday. Miss Hirsch is an attractive brunette, eighteen years old.

To Shut Him Out.

A report from Chicago says: A bill was filed in the Cook County Circuit Court by Rev. Michael J. Flinn, pastor of the Holy Name Cathedral, asking that the Rev. Jeremiah J. Crowley, the excommunicated priest, be restrained from entering the cathedral or attending divine worship in that edifice.

We know nothing of the merits of the case, but think any person should be allowed to attend any church he may wish to, especially the Catholic church, which means everywhere the church, all nations, all conditions, in fact—Whoever will, may come.

Was a Fine Marble Player.

"Uncle George" Evans, a schoolmate of Gen. U. S. Grant, has left the Lewis county parsonage, where he has been an inmate for the past six months, to go to his son in Covington. "Uncle George" is eighty-two years old and very feeble. He was once a wealthy citizen of Lewis county, but lost everything a few years ago, and was finally reduced to want.

He went to school with Gen. Grant at Mayville seventy years ago. He says that the late ex-Congressman Henry W. Wade was worth while to the same school, and was by far the brightest boy in it. He had no idea there was anything particular about Grant at that time. Grant was distinguished only as being the best marble-player in school, and was comparatively dull in books.

Queer Sail.

A tenor singer of an opera company slugging in St. Louis has instituted mandamus proceedings against the city and smoke inspector to compel the clarifying of the atmosphere so he can sing.

sufficient to give you most delicious tea biscuit using Royal Baking Powder as directed. A pure, true leavener.

A Lottery.

Circuit Judge Parker last week at Lexington handed down an important decision in regard to investment companies. Suit was brought against the United States Mutual Investment Company by Dr. H. C. Kehoe and others to recover money paid into the company. The questions before the court were whether the contract of the company was a legal contract or a lottery, and whether the court had jurisdiction to grant the relief asked for, that relief being to appoint a receiver and wind up the affairs of the company. Both questions were decided in the affirmative. The decision has created a sensation.

Pensions For Presidents' Widows.

Bills providing pensions of \$5,000 annually for the widows of two Presidents of the United States are expected to be introduced in the Senate on the first day of Congress. One provides for a pension for Mrs. McKinley. The other authorizes the payment of a pension to Mrs. Benjamin Harrison. The action of Mrs. Harrison's friends in asking that she be paid a pension has been the cause of a great deal of quiet comment and criticism among those who have learned of it.

Glad to be Our Friend.

"The course of events in Central America," says the London Pall Mall Gazette, "is showing how inevitable it is that the United States should be the principal reformer in these isthmian games, and that it is just as well that their government and ours should have settled outstanding differences and be working amicably together for the preservation of an open door."

Twenty-five men are dead, twenty-seven others are more or less seriously injured and thirteen others are missing as the result of the explosion of a boiler in the plant of the Peabody Injector Company in Detroit, Mich. After the explosion broke out in the debris and many of those pinned down were burned to death. The cause of the explosion is not known. The property damage was \$180,000.

Bryan For Governor.

Senator Millard, the new Senator from Nebraska, arrived in Washington last week. In an interview he said that the Democratic nomination for Governor of Nebraska will be tendered to William Jennings Bryan and that he will accept it.

May be Costly Amusement.

Christmas trees may be a costly amusement to Philadelphia this year. The fire insurance companies have issued a warning calling attention to a clause in all policies making them void in case of extra hazard. This, it is held, refers to Christmas trees.

ville at 7:00 p. m. This train arrives at Louisville in time for the attractions at the theatres.

Still another train leaves Burgin at 4:40 p. m., arrives Lawrenceburg at 5:25 p. m., and arrives in Louisville at 7:30 p. m. This train will handle from Burgin to Louisville the sleeper which comes from Charleston, Asheville and Knoxville on its way to St. Louis.

It will be seen by the above excellent arrangement that the through trains of the Southern Railway will not be at all hampered by waiting on connections. That is to say, if the Queen & T (recent or any other connection) should be late at a junction point, it has been provided in the above schedules to have the regular local trains kept on time, and additional trains have been arranged to wait for through connections.

It is hoped that the general public will show its high appreciation of this additional train service which the Southern Railway has arranged at quite a heavy expense, and of course it is expected in order to be able to keep the service permanently in effect that sufficient patronage must be accorded.

The engagement was announced of Miss Helen Hay, elder daughter of the Secretary of State, to Mr. Payne Whitney, second son of the Hon. Wm. C. Whitney, formerly Secretary of the Navy.

Close Call for Asbury College.

Asbury College at Nicholasville was considerably damaged by fire Tuesday last. Prompt work of students saved the building, which cost \$25,000. It was dedicated last June.

Burned to Death.

At Stepstone, during the temporary absence of its mother last Sunday, the baby of Mr. and Mrs. Sam J. Boyd was burned to death, its clothing having caught fire from coals dropping out of an open door of a coal stove.

South Carolina Interstate and West Indian Exposition.

The above Exposition, one of the greatest ever held in the South, will open December 1, 1901, and continue until June 1, 1902. Very attractive rates have been arranged from all points to Charleston, and the schedules via the Southern Railway, with its own rails the entire distance, are particularly convenient; and any agent of that line will give full information upon application.

Return to Old Fashion.

Pair trousers will be introduced to hear that a hat has gone forth that no Parisienne shall wear her hair gathered on the top of the head after next week. The fourth looks must descend over the nape of the neck in the style worn during the second empire. Scalpless reign supreme with ermine fur covers, with ermine and sable come next in favor. Cigarettes adopt the form of a procession of all-year foxes. Cloth and velvet dresses of antique design are trimmed with elchichilla, maroon and opussum. Cloaks are all the go for automobiles, and evening dress is all of the Louis XIV. fabrics, with shaws and hats of the same period.

Why England Loves Trade.

Lord George Hamilton, secretary of state for India, has written an important letter to John George Alexander Baird, M. P., member of a great Scotch firm, on how to keep orders for locomotives in England. Lord Hamilton says the requirements of India and South Africa in this line are increasing greatly, and will continue to do so. Orders have gone to Germany and America because the firms in those countries can deliver the engines much quicker than the English builders. Lord George Hamilton says British manufacturers must therefore increase their means of production.

Health and Beauty.

A poor complexion is usually the result of a torpid liver or irregular action of the bowels. Unless nature's refuse is carried off it will surely cause impure blood, pimples, boils and other eruptions follow. This is nature's method of throwing off the poisons which the bowels failed to remove. DeWitt's Little Early Risers are world famous for remedying this condition. They stimulate the liver and promote regular and healthy action of the bowels but never cause griping, cramps or distress. Safe pills.

Of Benefit to You.

Nature has just one pigment on her palette with which she produces all the marvelous tints of beauty, and that one pigment is the blood. The shell like pink tints of the lips, the iridescent brilliancy of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and complexion won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beauty preserver, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eyes, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging resins, which accumulate with constipated habit.

FACTS and OBSERVATIONS

On a Trip to Morgan County.
A Compliment to Her
People.

The writer, after spending Sat-
urday and Sunday in Harrodsburg,
reached home on Monday morning,
Nov. 18, and left in the afternoon
via Ky. & S. A. R. R. to Rothwell,
accompanied by T. D. Jones and
John Cravens. At Rothwell we
hired a hack to take us to McCau-
sey, where Mr. Jones was to spend
a few days hunting birds with Mr.
Cravens. Mr. Jones had been there
during the preceding week hunting
with one dog. The dog chased a
rabbit and Mr. Jones in order to
break him from such naughty con-
duct shot him most too hard and
the dog died. He now had two
dogs. After dark as we were driv-
ing up Beaver hill the hack broke
down and we three, well loaded,
walked one-half mile. We spent
the night with Mr. Cravens.

The writer started next morning
horse-back to West Liberty. At
Ezel we paid our respects to the
Pieratt family, taking dinner with
J. M. Pieratt and wife. Here we
learned that McCormick Bros., of
Spencer, had sold their stock of
merchandise to Mr. Pieratt's son-
in-law, Chas. Duell, and Bruce Duell,
merchants at Spencer.

You have heard of Old Father
Time. We saw one of his represen-
tatives, which is over a century old.
J. M. Pieratt on Friday, Nov. 22,
bought of John M. Carpenter an old
clock which had been in the Car-
penter family for more than 100
years. It is more than 7 feet tall.
The case is made of cherry; the
works are of a fine quality of wood;
the dial has all the emblems of the
three degrees of the Masonic Orders.
These are embossed in gold. It
bears the inscription: "S. Hoadley,
Plymouth." Everything is well
preserved.

Our stay was short, as we were
anxious to meet the men attending
court, so we hastened on to town 15
miles. Accustomed to horse back
riding, we enjoyed the trip. Before
leaving Ezel we had 'phoned an ap-
pointment to preach that night and
during our stay. We have preach-
ed for four nights, also took part in
Thanksgiving service. The pastor is
W. L. Buchanan, who was a class-
mate at Kentucky University for
one year. His salary is jointly paid
by the West Liberty congregation
and the State Board. We took
Thanksgiving dinner with him. He
and wife are blessed with six healthy,
radiant children, all red head-
ed. "Children are an heritage of
the Lord, etc."

killed Buck Henley, aged 47 years.
He was acquitted on the plea of

Young conducted the defense.

The criminal docket was very
light. This is complimentary to
the people of Morgan. It affords
the pleasure to state that during our
stay of over three days we have not
seen any man who appeared to be
under the influence of whiskey and
have heard but little swearing.
There has not been a licensed saloon
in the county for fully twenty
years. A gentleman said in sub-
stance: "In Morgan county we
make it hot for men who smuggle
whiskey. The people will not sub-
mit to it."

Our stay has been pleasant, and
we gladly availed ourselves of the
opportunity to present various phases
of duty and privilege to and in God
and Christ.

While in town we stopped at the
hotel kept by S. W. Ceil, whom we
had known from childhood.

This letter is written on Friday
night. We leave early to-morrow
for Caney, Hazel Green, etc., and
will probably spend Sunday at our
old home, Hazel Green, around
which cluster memories of a happy
childhood.

The most attractive ornamental draperies will be on exhibition at The Novelty Store.

Thanksgiving Service.

Thursday, November 29th, according to the proclamation of the President of the United States and the Governor of Kentucky, was observed as a day of general thanksgiving. In this city the people congregated at the First Presbyterian Church where they listened to a sermon by W. J. Hollis, pastor of the Baptist Church, which showed much thought, scholarship, and fitness and was appreciated by those who heard it. Having obtained the consent of the pastor we have decided to publish the sermon in full in our next issue.

The house was beautifully decorated with evergreens, palms and tropical plants and the productions of the field, orchard and garden. How beautiful it would have been had the entire population of our city been mindful of our God in his countless blessings. Music was under the direction of Mrs. French and was excellent, in expression and praise.

Misses Cynthia Williams, Clay City; Emma Skillman and Mary Bush, North Middleton; Messrs. R. M. Gilkey and Bert Bush, North Middleton; Jas. Caynes, Russell Sield and John Kelly, Lexington.

Getting Thin

Is all right, if you are too fat; and all wrong, if you thin already.

Fat, enough for your habit, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: overwork and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself in your work. You can't live on thinness—but, by it, you can. There's a limit, however, all pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "thin eat," unless it comes of our doing no work—you can't get well and strong, without some sort of activity.

The genuine has this picture on it. Take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE Chemists, 409 Pearl Street, New York. 50c. and \$1.00; all druggists.
